

# Uwin Skyway System

## Make Your DECT Phone a Skype Phone!

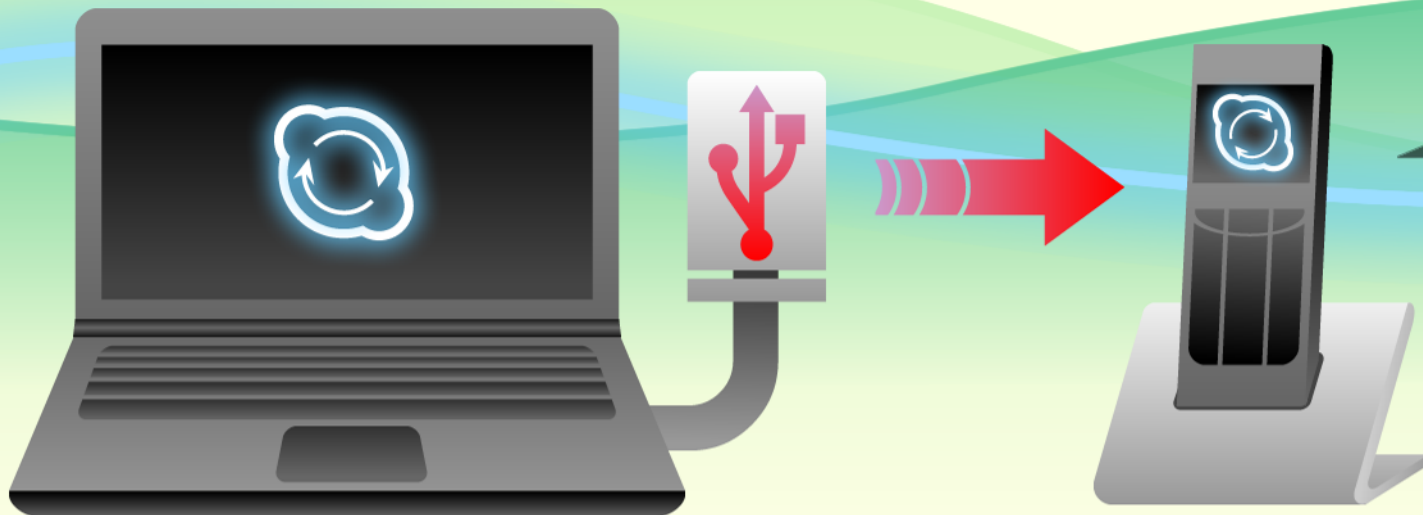

**USB DONGLE**  
UG-9902A

The DECT phone is no longer just a fixed-line phone.

By registering your phone with our USB Dongle, your DECT phone can also double as a Skype phone.

Answer Skype calls anywhere at your convenience. In the house with a cordless, or forwarding calls to your mobile when you're outdoors, you are tied down to your computer no longer.

Complete with a robust answering system, you'll never miss a call again!

### Skype Compatibility

Answer incoming Skype calls with your home DECT phone.

### Answering System

Never miss a call again!  
Record and store over 1000 hrs of voice mail.

### Call Forwarding

Forward Skype calls via DECT phone to your mobile or fixed-line.

### Range/Distance

Indoor: 30~50m  
Outdoor: 200~300m

### DECT GAP Standard

Compatible with any brand of GAP standard DECT phones.
